WELCOME TO THE PUFFINS GALORE! SPOTTER'S GUIDE

Puffins Galore! has been an epic in the making, which owes its success to the vision, generosity, tenacity and patience of all those who have been involved along the way.

Whether you call it a colony, a puffinry, a circus, a burrow, a gathering, or an improbability, Puffins Galore! has arrived. Forty-two artist decorated sculptures can be seen right along the coast from Bempton to Spurn Point, with a cheeky few migrating inland.

With their brightly coloured bill, striking black and white plumage, orange legs and comical waddle, puffins are some of the world's best-loved seabirds – they are also seriously threatened by human activities and the effects of climate change.

The unique artist decoration of each puffin responds to one of our three core themes:

- Endangered wildlife of the coasts and seas
- The global warming crisis and the growth of green energy
- People and stories of the East Yorkshire coast

We owe a great debt of thanks to many people for making this happen.

We are particularly grateful to Yorkshire Coast BID and East Riding Council for having the vision to provide the initial funds and support necessary to get the project up and running, and to our sponsors for making the finished product possible

The sculptures provide a fun-filled, joyful experience for those who see them, and the sale of the sculptures after the trail ends, gives us the opportunity to support charities working locally to promote conservation and preserve life at sea. Hornsea Inshore Rescue, Yorkshire Wildlife Trust, Royal Society for the Protection of Birds and the Royal National Lifeboat Institution all benefit from the proceeds of the project.

This guide is designed to help you find our gorgeous puffins and discover East Yorkshire along the way. You can also download the Puffins Spotter app (see back cover for details).

Whether you see them all, or just a few, we hope you enjoy Puffins Galore!
